Sanket Ugale
Backend Developer

PROFILE

I'm Computer Engineering student with a strong background in leadership and project management. Proficient in Python, PHP, Dart, and JavaScript, with hands-on expertise in building efficient mobile applications using Flutter. Skilled in backend development with Django and Django Rest Framework. Proficient in database management with MySQL, MongoDB, SQLite, and Firebase. Experienced in cloud storage solutions with AWS. Adept at version control using Git and GitHub, and experienced in testing and refinement with Postman. Well-versed in web development with HTML, CSS, Bootstrap, and React. Exploring the world of blockchain and decentralized technologies with Solidity for smart contract creation and deployment.

WORK EXPERIENCE

2022

Web Developer Intern
Noble Intermediates PVT LTD

During this Internship I have learned about web application development and created Ecommerce web-application from scratch for the company.

2021

Application Developer Intern
A2TECH CONSULTANTS

During this Internship I have learned about desktop application development and created one desktop application for the company.
